Career Objective

To become a skilled Full Stack Web Developer and contribute to helping individuals and businesses digitalize their lives through innovative and user-friendly solutions. I am eager to learn new technologies, continuously improve my skills, and adapt to the ever-evolving field of web development.

Software Proficiency

Languages - C, C++, Java, Php , Python

Framework - Django

Databases - Oracle, MySQL,SQL Lite

Web designing - React(Beginner), JavaScript, HTML, CSS

Technical Projects

ECOFINDS – Sustainable E-commerce Platform — 2nd sem

- Technologies: HTML, CSS, JavaScript, PHP, PostgreSQL
- Developed a full-stack e-commerce platform focused on eco-friendly and sustainable products.
- Implemented core features including product browsing, cart management, and order placement.
- Designed a user-friendly interface for smooth navigation across product categories.
- Built and tested the complete application ensuring functionality, usability, and performance.

Restaurant Management System — 3rd sem

- Technologies: HTML, CSS, JavaScript, PHP, MySQL
- Built a web-based system enabling users to book tables and order food online.
- Implemented features like menu browsing, time-slot based reservations, and order placement.
- Added input validation to prevent booking conflicts and ensure data accuracy.
- Managed backend data flow to handle multiple user requests efficiently.

Shree Sales – Online Stationery Store — 4th sem

- Technologies: React, Python, Django, PostgreSQL
- Developed a real-world e-commerce platform for a local stationery business (Shree Sales).
- Designed and implemented frontend using React for a smooth and modern user experience.
- Built backend using Django to handle product management, order processing, and database operations.
- Implemented features like product categorization, search functionality, and cart system.
- Enabled the business to showcase and manage products digitally, improving accessibility for customers.
- Ensured responsive design and seamless performance across devices.

Academic Qualification

10th Boards
2022

- 89.40%
- Central Board of Secondary Education System
- Shree K.G. Dholakiya School, Rajkot

12th Boards
2024

- 93.33% (PCM)
- Gujarat State Secondary Education Board
- Utkarsh - The School of Science and technology , Rajkot

Graduation
2024-2028

- Btech - computer engineering
- Chandubhai S. Patel Institute of Technology
- Charotar University of Science and Technology
- 7.84 (upto 3rd sem)

Professional Growth

- Completed NPTEL certification in Data Structures & Algorithms (Java).
- Earned certifications from Coursera in Algorithm Design, Data Analysis (Python), Core Java, and Web Development (PHP).
- Completed AWS foundational training, gaining exposure to cloud computing.
- Demonstrated consistent learning through multiple certifications in programming and data science.
- Participated in C Quest coding competition, improving problem-solving skills.
- Actively engaged in self-paced learning (Coursera, NPTEL).
- Gained hands-on experience in Java (OOP), Python (Data Analysis), and Web Development (PHP).
- Practiced algorithmic problem-solving and computational thinking through structured courses.

Personal Profile

Nationality - Indian
Date of Birth - 04th July 2006
Languages - Gujarati , Hindi , English
Place - Rajkot (Gujarat)

Declaration

I here by declare that above information is correct to the best of my knowledge and belief.
